General principles

The financial statements are drawn up in accordance with the provisions of Title 9, Book 2, of the Dutch Civil Code and the Dutch Accounting Standards applicable to small legal entities, as published by the Dutch Accounting Standards Board ('Raad voor de Jaarverslaggeving').

Assets and liabilities are generally valued at historical cost, production cost or at fair value at the time of acquisition.

If no specific valuation principle has been stated, valuation is at historical cost. The valuation principles and method of determining the result are the same as those used in the previous year, with the exception of the changes in accounting policies as set out in the relevant notes.
